

2022 戒菸專線國際視訊研討會

2022 Quitline in Smoking Cessation for Youth Online International Conference

大綱：

青少年吸菸的問題，主要是因為愈早開始吸菸，日後對於尼古丁的依賴也愈大，而且，這些年輕族群的戒菸成功率卻較低，最終導致罹患與吸菸相關之疾病而增加死亡的機率。因此各國對於青少年戒菸之介入方式及需求與日遽增，包括社會支持、公共衛生教育以及建立戒菸專線等。為充分利用戒菸專線以協助青少年戒菸，特於本(111)年 10 月 20 日辦理「2022 戒菸專線國際視訊研討會」，邀請來自瑞士、泰國、香港及台灣的專家，分享最佳實例經驗，期提高戒菸專線對年輕吸菸者的成效和影響力。

主辦單位：台灣衛生福利部國民健康署（HPA）

承辦單位：彰化基督教醫療財團法人彰化基督教醫院

會議連接：Webex 軟體 <https://reurl.cc/6Zb66y>（會議室將於台北時間 13:30 開啟）

* 備有英翻中口譯

Outline:

The problem of youth smoking is mainly because the sooner you start smoking, the greater the dependence on nicotine in the future, and the success rate of smoking cessation in these young groups is lower than adult, which eventually leads to an increase in smoking-related diseases. The demand for effective cessation interventions for youth tobacco use is growing, including social support, public health education, and establishing a quitline. At the 2022 Quitline in Smoking Cessation for Youth Online International Conference, renowned experts in smoking cessation for youth are invited to share experiences and best practices of tobacco prevention and control among adolescents, and Quitline in smoking cessation and the effectiveness for youth in Switzerland, Thailand, Hong Kong, and Taiwan. It is hoped through the sharing and discussion with international speakers, the efficiency and impact of Quitline for young smokers can be strengthened.
