## 第 37 屆世界醫院大會活動學術暨時間表議題

### A. **Plenary sessions:** Total of 6

**Length:** 1hour (Presentation: 30-45 minutes & 30-15 minutes Q&A)

**Topics** (proposed keynote speaker / organisation):

- I. Delivery of effective care through better global governance (World Health Organization)
- II. Technology-driven innovation: perspectives and obstacles (TBD - )
- III. Quality and Safety: what is new? (ISQua or other)
- IV. Organizational challenges of Ethics in healthcare (UNESCO or International Alliance of Patients' Organizations (IAPO))
- V. Key challenges in sustainable financing of healthcare (the World Bank or IFHP)
- VI. Opportunities to increase productivity in delivery of hospital services ( from a Hospital association or a Hospital management University)

### B. **Parallel Sessions:** 4 sessions per day(basic option)

**Length:** 1.5hour (Presentation: 30-45 minutes & 30-15 minutes Q&A)

**Topics:** The topics listed below may be in addition to those of the 6 plenary sessions

- I. Member sessions: Sharing unique performances (panel discussion with one panellist per continent)
- II. Special interest sessions

#### a. **IHF Members' Sessions**

To ensure the success of the Dubai and future World Hospital Congress, it is imperative for all IHF members to own up to the responsibility and to contribute to their best ability as proposed hereunder:

#### **Organization**

IHF will issue a call for proposal to all IHF members to invite them to take up the responsibility of organizing at least one parallel session to share their experience and knowledge on various healthcare issues or showcase an area of achievement in their organization or country. Since all IHF Governing Council Member organizations are expected to take up the responsibility of organizing one session, it will be sufficient to provide the minimum number of sessions needed for a good Congress.

#### **Financing**

The parallel sessions to be organized by IHF Members will have to be self funded. Accordingly, their speakers will only be offered free registration for the Congress (up to 4 per session). Their travel and lodging costs will have to be self-financed or sponsored by the nominating organization.

**Participation in the Congress** IHF Members taking responsibility of a parallel session is expected to put together a delegation for participation in the congress.

**b. Parallel Sessions: *Special Interest Sessions***

It is proposed that there will be the following special interest sessions (fully self-sponsored i.e the speakers are registered participants) to be included in the Congress scientific program:

- i. University Hospital Chapter (To be held either on Day 1/2/3 in IHF Parallel slot – see programme)
- ii. Healthcare National Purchaser Chapter (To be held either on Day 1/2/3 in IHF Parallel slot – see programme)
- iii. Architects - Public health group of IUA (To be held either on Day 1/2/3 in IHF Parallel slot – see programme)
- iv. IHF project (s): MDR-TB; Infant Food Safety; Initial outcomes from Corporate Leadership Council project.
- v. IHF partner sessions (i.e. WHPA on task shifting - To be held either on Day 1/2/3 in IHF Parallel slot – see programme)
- vi. Dubai Health Authority sessions (To be held either on Day 1/2/3 in IHF Parallel slot – see programme)

**c. Parallel Sessions: *Marketing and sponsorship***

Marketing at the Congress will give much more place and recognition on the role and presence of each of the supporting IHF member organization/countries, thereby placing national associations in a better position to solicit full support from their own constituency. It will also give them a very strong leverage to entice corporations and companies to become exhibitors and/or sponsors knowing in advance the origin of key representatives from major hospital associations.

**C. Hosting Side Events**

To enrich the Congress scientific program, IHF will continue to work on the possibility of hosting side events as pre or post conference activities that would offer participants extra learning as well as experience and knowledge sharing opportunities at a low marginal cost. These side events can be supported by partners such as the JCI or ESRI, UN organizations like WHO, the World Bank or other NGOs like the World Economic Forum or those representing the corporate sector. All side events are to be fully self-funded and should attract some additional participants to WHC.

**D. IHF Sessions/events:**

In keeping with past tradition and arrangement, the following IHF sessions/events will be organized in the Dubai Congress and all future WHCs:

**I. *Hospital and Healthcare Association***

The IHF Secretariat, as a first task, would contact member associations to poll for topics and programmes. Proposed deadline for submission from member associations would be 30 October 2010. Invitations would be extended to countries whose healthcare/hospital associations are non-IHF members in order to maximize exposure and interaction. This meeting is dedicated to specific issues related to the specific role of these organizations as national representative bodies of the health care services.

**II. *GC Meetings* (see preliminary program guide for time & date)**

**III. *General Assembly* (see preliminary program guide for times & days)**
